

QUALITY POLICY

MKE's Quality Policy is to maintain its position as a leading organisation and a driving force in the industry by meeting the conventional defence industry needs of the Turkish Armed Forces, security forces and other customers to the highest standards, while pursuing its objectives of producing indigenous, technologically advanced, innovative and competitive products.

To achieve these objectives, MKE adopts the following principles:

NATIONAL STRENGTH

To contribute to the development of the national defence industry to the greatest extent possible and support the growth of exports.

TECHNOLOGY AND INNOVATION

To develop new technologies through research and development (R&D) activities and establish a future-oriented technological infrastructure through an innovative approach.

CONTINUAL IMPROVEMENT AND DEVELOPMENT

To continually improve our processes while contributing to the development of all our stakeholders, the sector and the national defence industry.

COMPLIANCE WITH LAWS AND STANDARDS

To ensure transparency and accountability within a Quality Management System that complies with applicable laws, regulations and national and international standards.

ENVIRONMENTAL RESPONSIBILITY AND OCCUPATIONAL HEALTH AND SAFETY

To achieve the highest levels of efficiency and quality in production without compromising environmental responsibility or occupational health and safety principles.

HUMAN RESOURCE DEVELOPMENT

To adopt a people-centred approach and prioritise the continual development and training of all employees and stakeholders.

CUSTOMER SATISFACTION

To understand customer and industry expectations, prioritise customer satisfaction and maintain the quality of our products throughout their entire life cycle.
